Jul 26, 2018 Jul 19, 2018 The biggest news in Vray 3.4 is not the version number, but Vray Next. Vray Next will extend the current version of Vray by becoming a standalone application while maintaining the Vray 3.x.

Feb 1, 2018 We are proud to announce the release of Vray 3.4 Final for SketchUp 2019. Thank you to everyone that helped in testing the release and for all the feedback . Vray 3.4 is a complete overhaul of the vray toolset.

Vray 4 is optimized for SketchUp 2019 and is fully compatible with previous versions of SketchUp. This release is also a free upgrade for all vray 3.3 users, even if you have already.

Oct 15, 2018 This version fixes several minor bugs and improves the rendering quality of vray materials. The render engine has also been upgraded to vray 4.0 which should improve the rendering of windscreen

replacement. Oct 16, 2018 This release fixes

several minor bugs and improves the rendering quality of vray materials. The render engine has also been upgraded to vray 4.0 which should improve the rendering of windscreen replacement.
